The Mystical Mountains

Oregon is renowned for its picturesque landscapes, with majestic mountains blanketed in dense forests and breathtaking vistas. Nestled amidst this natural beauty, the occurrence of an interdimensional battle seemed inconceivable to the locals. Yet, it was within these very mountains that the veil between the dimensions grew thin, allowing beings from other realms to step into our world.

Strange Encounters

On a quiet summer evening, campers and hikers began reporting unusual sightings and inexplicable phenomena. Some claimed to have witnessed shimmering portals opening in the sky, while others reported encounters

with beings unlike anything they had ever seen. These extraterrestrial entities possessed ethereal appearances, radiating an otherworldly aura.

Eyewitnesses described the beings as humanoid in shape but adorned with ornate armor that gleamed under the moonlit sky. Their weapons crackled with mysterious energy, casting an eerie glow in the darkness. As hikers stumbled upon this interdimensional battleground, they were paralyzed by fear, unsure of what they were witnessing.

The Battle in Full Swing

As the battle raged, the air crackled with power as these beings clashed with fervor. Their battle cries echoed through the mountains, piercing the serene atmosphere. Witnesses watched in awe as energy bolts were discharged, tearing through the night, and leaving trails of luminescent residue in their wake.

The landscape bore the scars of their conflict. Trees shattered as if struck by invisible cannons, and rocks were disintegrated by the impact of mighty blows. The ground quaked beneath the force of this interdimensional clash, threatening to unleash chaos upon our reality.

Unanswered Questions

As dawn broke, the battle reached a momentary impasse. The beings retreated back into the ethereal depths from which they emerged, leaving behind a bewildered audience, longing for answers. Authorities arrived, attempting to make sense of the events that had transpired, but there were no simple explanations to offer. Speculations ran wild, with theories ranging from a secret governmental experiment to extraterrestrial beings battling for control over our world.

While some dismissed these accounts as mere fiction or hallucinations, the locals who witnessed the battle knew the truth was far stranger. They shared their stories, forming a tapestry of experiences that painted a cryptic picture of an interdimensional battle fought in their midst.

A Permanent Mark

The interdimensional battle became a part of the local lore, forever etched into the fabric of Oregon's history and cementing its reputation as a hotspot for unexplained phenomena. The mountains, once known for their peaceful serenity, now carry an air of mystique, attracting visitors far and wide in search of the extraordinary.

While the beings have not made a reappearance since that fateful day, the memory of their clash lives on. It serves as a reminder that beneath the façade of our familiar reality lies a vast unknown, where battles between dimensions may occasionally seep into our world.

The interdimensional battle in the mountains of Oregon remains an enigma. Its occurrence challenges our understanding of the universe, sparking both curiosity and trepidation. As we gaze upon the serene mountains, we cannot help but ponder the hidden mysteries that lie beyond our perception. Perhaps, one day, the veil will thin once more, and whispers of another battle will arise, captivating and bewildering us once again.

(I asked a few Beta readers for reviews, and Bill, from Bill McSciFi, was kind enough to give me one. I will reprint it here:) Sparrows and Hawks by Rik Ty

Review by Bill “McSciFi” McCormick

Ty's latest venture into the Thrill King's universe is like going on a meth fueled romp inside a wood chipper. And I mean that as the highest compliment. Disparate characters are introduced, fleshed out, and then thrown head first into one of the most batsh*t plots ever. All the elements you want in a multi-dimensional thriller are here; evil aliens, a team of well trained heroes, a suburban family thrust into the unimaginable, and so on, but where other authors would be overjoyed to get that right, Ty just glances at them, deems them worthy, and then embarks a rollercoaster ride that will leave you wondering what the hell just happened and when can it happen again? Buy it now and thank me later. It's that good.

That was very nice of Bill. I'm grateful. I needed someone to give a reaction to the book, and Bill McCormick did. He didn't have to. Bill is also an author. His latest books are "Splice", "The Brittle Riders", and "Dogs Of War". Which you can find here on Amazon (Bill did NOT ask me to say that).
